Things You Should Know

- Almost all of our animals have recently come from shelters that euthanize a high percentage of their animals due to lack of space.
- Most of our pets live in foster homes till they get adopted. - We desperately need more foster homes!
- All of our pets are fixed, vaccinated, and most are dewormed and microchipped before they go home with their new family.
- We cannot guarantee anything about any animal. We promise to accurately describe the behavior, house training etc. that we observe but those behaviors can change when a pet goes to a new environment.
- Sometimes a dog starts to show signs of kennel cough after they arrive in their new home. It can take up to 14 days to show up. In most cases kennel cough does not require any treatment. Its usually like having a cold.
- We hold young puppies for two weeks to try to ensure that they do not have Parvo. If your new puppy is vomiting at all or has diarrhea for more than 12 hrs after adoption please call us right away. We will ask questions that will help you decide what needs to be done. Many animals have diarrhea due to the stress of changing homes. 719-748-1277 or text 719-622-1399
- A lot of our animals come from shelters in NM – the tick capital of the world. We give them flea/tick baths when possible and to our best to remove all their ticks but some times we miss a tick or two.
- Once you adopt you are fully responsible for all the medical care of your new pet.
- It can take a week or two for a new pet to get comfortable and relax in a new home. It may take a little while for them to understand the behavior you expect from them.
- We charge more for puppies because it helps discourage unscrupulous people from adopting and selling the pups. It also helps us pay for medical treatment for sick pups and allows us to rescue adult cats - their medical care is usually more than their adoption fees.
- All of our workers are animal lovers that volunteer many hrs. a week to be a bridge for these pets to find their forever homes.
- If there is a problem we will do our best to resolve it. Most problems are easily correctable. You can call 719-748-1277 if you have a problem.
- If you cannot keep your adopted pet please let us know. We will either take the pet back or help you find a new, safe home for the pet.
- Small dogs are more likely to bite or nip. Please consider this carefully if you have small children. They are also harder to house train.
